CATALOGUE and PRICE LIST

Bloodroot (*Sanguinaria canadensis*)

Mitchell Nurseries
BARRE, VERMONT

TERMS OF BUSINESS

Our terms are **CASH WITH ORDER** and our prices include packing, boxing, and delivery to our Post Office or Express Office.

DISCOUNTS:—Quantity of stock on hand to begin 1948 is low in this nursery as it is in every nursery in America, and the discounts for early orders given in former years is discontinued until further notice; but it will pay any purchaser to order early and name a few items which we may substitute in case we are out of items ordered.

PRICES:

The prices in this catalog are good until January 1, 1949, only.

All \$.35 Plants are \$1.00 for 3—\$3.50 for 12 of one kind

All \$.50 Plants are \$1.40 for 3—\$5.00 for 12 of one kind

All \$.75 Plants are \$2.00 for 3—\$7.50 for 12 of one kind

All \$1.00 Plants are \$2.50 for 3—\$10.00 for 12 of one kind

If you order 3 sedums, for instance:—*S. acre*, *S. roseum* and *S. album*, this order does not take the 3 rate, but being all different varieties, they take the single rate. Also if you order 12 Saxifrages of 12 different varieties, they take the single rate. Only when the 12 are all of one variety, as 12 *Saxifraga aizoon*, or 12 *Veronica repens*, then they take the dozen rate.

During the War and since, Parcel Post has been more reliable and usually cheaper than Express in the handling of nursery stock, and we recommend that our customers have their plants shipped by Parcel Post, and when shipped that way the following cost must be added to the amount of the order to cover the cost of postage and special packing necessary; to all points north of the Potomac River and east of Cleveland, Ohio, 8% extra; to all points west of Cleveland and east of the Mississippi River, 15% extra; to all points between the Mississippi River and the Rocky Mountains, 20% extra; to all points west of the Rocky Mountains, 25% extra. Purchaser pays all transportation charges.

However, if the customer prefers to have the shipment sent by Express, collect, it will be shipped that way.

We guarantee all plants to be true to name. No further warranty of any kind can be given.

No order will be accepted that totals less than \$2.00.

Make all checks payable to MITCHELL NURSERIES.

This Nursery is not connected in any way with the George Mitchell Gardens of Williamstown, Vermont.

SECTION I

Rock Garden Plants

ACAENA Buchanani:—1 in. Ground cover with silvery foliage.....	.35
A. glauca:—Similar to above but greener foliage.....	.35
Acanthophyllum spinosum:—6 in. Fragrant fringed white pinks.....	.50
Achillea ageratifolia:—6 in. White foliage, white flowers in July....	.35
A. aurea:—Golden-yellow flowers in July and August.....	.35
A. Fraasii:—10 in. Silver-white foliage; white flowers.....	.35
A. Lewisii:—6 in. Lemon-yellow flowers over gray foliage, rare.....	.50
A. siberica:—10 in. Small with silvery leaves; white flowers, late.....	.35
A. millifolium roseum:—12 in. Pink Yarrow; Midsummer bloom.....	.35
A. tomentosa:—8 in. Yellow flowers in late summer.....	.35
A. umbellatum:—4 in. White flowers in July. Rare.....	.35
ACTAEA alba:—2 ft. Large white berries in September.....	.35
A. rubra:—Red berries, otherwise like above.....	.35
ACTINEA herbacea:—10 in. Large yellow daisies. July. Full sun..	.35
Adenophora diplobonta:—24 in. Long bells shading white to lilac.....	.50
Aethionema coridifolium:—6 in. Light pink blooms in midsummer....	.35
A. grandiflora:—15 in. Largest of the Aethionemas, light pink.....	.50
A. pulchellum:—8 in. Glossy green foliage, pink bloom.....	.35
A. Warley's Rose:—Best of the Aethionemas; lovely hybrid.....	.75
AJUGA Brockbanki:—6 in. Bronzy-green foliage, blue flowers.....	.35
A. genevensis alba:—5 in. Green foliage; white flowers in June	.35
A. genevensis, Pink Spires; 6 in. Pink blooms; rare.....	.50
A. reptans:—6 in. Creeper. Sun or shade. Blue flowers in June....	.35
A. variegata:—5 in. Variegated foliage. Blue flowers.....	.35
ALLIUM BEESIANUM :—6 in. Best blue Allium from China.....	.35
A. cernuum:—18 in. Pink flowers in nodding umbels; mid-summer.....	.35
A. flavum:—10 in. Large heads of yellow, drooping flowers.....	.35
A. karataviense:—8 in. Light green leaves often 3 inches across, with lavender flowers in globular umbels 2 inches through.....	\$1.00
A. Moly:—12 in. Large umbels of yellow flowers in Aug. Uncommon..	.50
A. pulchellum:—12-18 in. Deep pink blooms in August.....	.35
A. sphaerocephalum:—2 ft. Deep rose-colored spherical umbels, rare..	.50
A. stellatum:—12-18 in. Light pink flowers in late summer.....	.35
A. tibeticum:—8-10 in. Light mauve flowers in May.....	.35
ALYSSUM argenteum:—10 in. Bright yellow; blooms in midsummer..	.35
A. Moellendorflanum:—Silvery foliage with golden blooms in June....	.35
A. montanum:—6 in. Grey foliage, deep yellow flowers.....	.35
A. saxatile citrinum:—A variety of above with soft yellow flowers....	.50
A. saxatile compactum (Basket of Gold): 12-18 in. May and June....	.35
A. serpyllifolium:—2 in. Yellow; one of the smallest and best.....	.50
A. spinosum:—8 in Sweet scented white flowers. Rare and good....	.50
ANDROSACE Chumbyi:—4 in. Silvery rosettes; bright pink blooms..	.50
A. lanuginosa:—Silvery trailing foliage. White red-eyed blooms.....	.75
A. mucronifolia:—3 in. A small variety of A. sempervivoides.....	.50
A. sarmentosa:—4 in. Wooly rosettes; deep pink flowers; very good..	.50
A. sempervivoides:—3 in. No wool on rosettes; lilac flowers in May....	.50
A. vitaliana:—3 in. Hard green mounds covered with yellow blooms...	.50
A. Yunnanensis:—A larger variety of Androsace sarmentosa.....	\$1.00
ANEMONE BALDENSIS:—6 in. Large white flowers in July.....	.75
A. canadensis:—12-18 in. White flowers all summer. Sun or shade....	.35
A. magellanica:—15 in. Light yellow blooms in June.....	.50
A. montana rubra:—12 in. A wine-red Anemone pulsatilla.....	.75
A. numerosa, Royal Blue:—Deepest blue in the tribe; lovely	\$1.00

<i>A. patens nuttalliana</i> :	—6-9 in. Pale lilac flowers. May.....	.50
<i>A. pulsatilla</i> :	—12-15 in. Purple flowers in early spring.....	.50
<i>A. pulsatilla alba</i> :	—A white flowered <i>A. pulsatilla</i>50
<i>A. pulsatilla rubra</i> :	—A dark red flowered <i>A. pulsatilla</i>75
<i>A. quinquefolia</i> :	— 6 in. Our native Wood Anemone.....	.35
<i>A. sylvestris</i> :	—12-15 in. Large pure white flowers in June.....	.35
<i>Anemonella thalictroides</i> :	—6 in. White flowers one inch across.....	.35
<i>Antennaria dioica</i> :	—One of the finest silvery ground covers.....	.35
<i>Anthemis aizoon</i> :	—See <i>Achillea ageratifolia</i>	
<i>A. nobilis</i> :	—8 in. White daisies in late summer. Give full sun.....	.35
<i>A. Sancta-Johannis</i> :	—15 in. Orange colored blooms in August.....	.35
<i>Anthericum liliago</i> :	—12 in. Grass-like foliage, white flowers.....	.35
<i>Antirrhinum Asarina</i> :	—A prostrate hardy white snapdragon.....	.50

AQUILEGIA	<i>Akitensis</i> :	—8 in. A Jap. Columbine in blue and cream.....	.50
	<i>Alpina</i> :	—Large blue flowers on 18 in. stems. Good and easy.....	.35
	<i>canadensis</i> :	—Native red and yellow Columbine. July.....	.35
	<i>caerulea</i> :	—2 ft. Rocky Mt. Columbine. Blue and white.....	.35
	<i>Chrysantha</i> :	—2 ft. A pure yellow Columbine. All summer.....	.35
	<i>clematiflora</i> :	—18 in. Lovely flat blooms in pink and cream.....	.50
	<i>Crimson Star</i> :	—2 ft. Deep red petals; white center. August.....	.50
	<i>ecalcarata</i> :	—10 in. Charming graceful little spurless red blooms.....	.50
	<i>flabellata</i> :	—12 in. Large bluish-white short spurred variety.....	.50
	<i>longissima</i> :	—2 ft. Huge yellow flowers with 4 in. spurs.....	.50
	<i>Pink Hybrids</i> :	—2 ft. Many pink shades; blooms all summer.....	.35
	<i>pyrenaica</i> :	—10 in. A lovely clear blue dwarf, long spurred.....	.50
	<i>veridiflora</i> :	—18 in. Large greenish-white flowers; quaint.....	.50

ARABIS	<i>androsace</i> :	—2 in. A rare <i>Arabis</i> resembling <i>Androsace</i>75
	<i>alpina</i> :	—Very early with a host of pure white flowers.....	.35
	<i>alpina fl. pl.</i> :	—6 in. Double flowered form of above. Superior..	.50
	<i>albida</i> :	—6 in. An improved <i>A. alpina</i>35
	<i>albida rosea</i> :	—6 in. Flowers of a mauve-pink shade.....	.50
	<i>albida Rosabelle</i> :	—A deep pink variety.....	.50
	<i>albida variegata</i> :	—Variegated form of above. Choice and rare....	.50
	<i>blepharophylla</i> :	—10 in. Lovely rose-purple bloom in spring.....	.50
	<i>Kellereri</i> :	—4 in. A rare kind with white flowers in early spring....	.50
	<i>procurrens</i> :	—6 in. Large white flowers in spring. Rare.....	.35
	<i>sturii</i> :	—6 in. A fine dwarf <i>Arabis</i>35
	<i>Sundermanni</i> :	—A rare hybrid. Brilliant green foliage.....	.35
	<i>Arctostaphylos alpina</i> :	—1 in. Prostrate Arctic shrub; rare.....	\$1.50
	<i>Uva-ursi</i> :	—Bearberry; Evergreen foliage red berries.....	.50

ARENARIA	<i>caespitosa</i> :	—1 in. Moss-like with white flowers.....	.35
	<i>caespitosa aurea</i> :	—1 in. Yellow mats with white flowers.....	.35
	<i>congesta</i> :	—10 in. A white flowered Rocky Mt. species.....	.35
	<i>grandiflora</i> :	—6 in. Extra large white flowers in midsummer.....	.35
	<i>laricifolia</i> :	—6 in. Dark green mats; white flowers in June.....	.35
	<i>Ledebouriana</i> :	—Very dark green cushions with fine white flowers..	.35
	<i>purpureascens</i> :	—4 in. Lilac flowers above green tufts.....	.50
	<i>montana</i> :	—6 in. Large white flowers in July.....	.35

ARMERIA	<i>alpina</i> :	—6 in. A lovely plant with bright pink flowers.....	.35
	<i>alpina alba</i> :	—6 in. A white form of the above.....	.35
	<i>Bee's Ruby</i> :	—12 in. Large bright red flower heads.....	.75
	<i>caespitosa</i> :	—2 in. Pink flowers on a dark green cushion.....	.35
	<i>laucheana</i> :	—4 in. Bright pink blooms. One of the best.....	.35

ARISAEMA	<i>trifolium</i> (Jack-in-the-Pulpit):	—Fine for shade.....	.35
	<i>Artemesia abrotanum</i> :	Southernwood; aromatic gray foliage.....	.35
	<i>A. canadensis</i> :	—6 in. Has beautiful finely cut gray foliage.....	.35
	<i>A. frigida</i> :	—8 in. The best <i>Artemesia</i> ; lovely white foliage.....	.35
	<i>A. pedamontana</i> :	—4 in. Finely cut aromatic gray clumps.....	.50
	<i>A. Stelleriana</i> :	—6 in. A creeping plant with white foliage.....	.35

ASARUM canadensis :	—4 in. Good ground cover for dense shade.....	.35
Asclepius tuberosa :	—18 in. umbels of flaming scarlet in August.....	.35

ASTER:—This lovely genus contains many real Rock Garden Gems. Give them full sun and any kind of soil.

Aster alpinus , Goliath:	—8 in. Large, lovely blue-purple daisies.....	.35
A. alpinus albus :	—A white form of the above; equally good.....	.35
A. ericoides , Blue Star:	—Innumerable small blue flowers; graceful.....	.50
A. ericoides :	—Like the above but color is white.....	.35
A. Kumleini :	—8 in. Inch blooms in pink or lavender in August.....	.50
A. linariifolius :	—12 in. 1 inch blue flowers in September.....	.35
A. luteus :	—18 in. A lovely yellow hybrid.....	.35
A. Star of Eisenbach :	—A large flowered blue variety of <i>A. Alpina</i>35
A. sericeus :	—Silky foliage with claret colored flowers.....	.35
A. spectabilis nana :	—8 in. Large bright violet blooms in Sept.....	.75
A. New Dwarf Hybrids :	—Below are the best of these new Asters:	
A. Aurora :	—18 in. Semi-double. Shell pink, yellow center.....	.35
A. Bluebird :	—10 in. Clear lavender-blue35
A. Blue Bouquet :	—12 in. Violet blue with yellow eye.....	.35
A. Constance :	—9 in. Shell pink.....	.35
A. Countess of Dudley :	—12 in. Clear pink, yellow eye. October.....	.35
A. Daphne :	—12 in. Pink shaded lilac.....	.35
A. Lavenda :	—Lavender blue flowers. 6 in. Blooms early.....	.35
A. Lady Henry Maddocks :	—Clear pink flowers early in September.....	.35
A. Lilac Time :	—12 in. Bushy with soft lilac flowers.....	.35
A. Maiden Blush :	—8 in. Flowers white, tinged pink. August.....	.35
A. Marjorie :	—9 in. Bright rose-pink flowers in mid-October.....	.35
A. Niobe :	—6 in. Very dwarf with pure white flowers.....	.35
A. Peter Pan :	—6 in. Soft pink flowers. Dwarf, compact growers..	.35
A. Remembrance :	—14 in. Large semi-double lilac flowers, late Oct..	.35
A. Ronald :	—8 in. Rose-pink buds opening to lilac-pink blooms.....	.35
A. Snowsprite :	—8 in. Semi-double snow-white flowers in Sept.....	.35
A. Victor :	—6 in. Pale lavender-blue flowers in mid-September.....	.35

ASTILBE chinensis pumila :	—6 in. Deep pink spikes of bloom in Aug...	.50
A. simplicifolia :	—8 in. Light pink spikes in late summer.....	.50

AUBRIETA:—This genus contains some of the best and easiest of all Rock Garden plants. Plant in full sun in any ordinary garden soil.

Aubrieta , Borsch's Brilliant:	—3 in. The best red Aubrieta.....	.50
A. Borsch's White :	—Large white flowers tinted pink.....	.50
A. Dr. Mules :	—Large violet-purple flowers; profuse bloomer.....	.50
A. Gloriosa :	—Largest flowers of all; light pink.....	.75
A. graeca :	—Very compact species, lavender to purple flowers.....	.35
A. Lavender Queen :	—Pale lavender blooms with white eye.....	.50
A. Old Rose :	—Name descriptive of color.....	.50
A. Pink Parachute :	—A soft shade of Dianthus pink.....	.50
A. Purple Knoll :	—Violet- purple50
A. Purple King :	—A different shade of purple from above.....	.50
A. Mixed Hybrids :	—Many colors mixed. Seed from named kinds....	.35

BELLIUM bellidioides :	—2 in. Tiny white daisies all summer.....	.35
-------------------------------	---	-----

CALAMINTHA alpina :	—6 in. Purple flowers in late summer.....	.35
C. glabella :	—6 in. Lilac-colored flowers all summer. Very rare....	.50

CALLUNA Alportii :	—10 in. A rare crimson flowered heather with dark green foliage	\$1.00
C. vulgaris :	—12 in. Covered in August with lilac flowers.....	.75
C. vulgaris alba :	—12 in. White with bloom in August.....	.75
C. vulgaris aurea :	—Foliage bright yellow; flowers mauve.....	.75

CALTHA palustris :	—Our American Cowslip; golden flowers.....	.35
---------------------------	--	-----

CAMASSIA quamash:—2 ft. A bulbous plant; blue flowers.....	.35
CAMPANULA :—The Bellflowers offered below are the best of this great genus. They will do well in any garden soil, however, <u>Campanula requires an acid soil.</u>	
C. <i>alliariaefolia</i> :—Long spikes of creamy-white flowers.....	.35
C. <i>carpathica</i> :—10 in. Blue, saucer-shaped bloom all summer.....	.35
C. <i>carpathica alba</i> :—A pure white form of above.....	.35
C. <i>carpathica Exquisite</i> :—Flowers white with blue edging.....	.50
C. <i>carpathica pallida</i> :—Large flowers of lightest blue.....	.50
C. <i>cochlearifolia</i> :—4 in. Lovely light-blue thimbles50
C. <i>cochlearifolia alba</i> :—A snow-white variety of the above.....	.50
C. <i>garganica</i> :—3-4 in. White-eyed, blue, star-like blooms.....	.50
C. <i>glomerata</i> :—12-18 in. Rich purple flowers in July.....	.35
C. <i>glomerata acaulis</i> :—Like above, but only 4 inches tall.....	.50
C. G. F. Wilson:—Lovely garden hybrid. Dangling violet bells....	.75
C. <i>istriaca</i> :—Pale blue flowers. Rare.....	.50
C. <i>Parryi alba</i> :—(C. <i>planifolia</i>) Large white saucer-like flowers.....	.75
C. <i>persicifolia grandiflora</i> :—2-3 ft. Large blue flowers.....	.35
C. <i>persicifolia alba</i> :—2 ft. A white variety of the above.....	.35
C. <i>persicifolia alba</i> fl. pl.:—A double white persicifolia.....	.50
C. <i>Portenschlagiana</i> (C. <i>muralis</i>):—6 in. Flowers blue purple, large..	.50
C. <i>Poscharskyana</i> :—Long prostrate stems, flowers much like <i>garganica</i> ,	.50
C. <i>pulla</i> :—3 in. Satiny bells of deepest purple; moraine.....	.50
C. <i>pusilla</i> :—See C. <i>cochlearifolia</i> .	
C. <i>Raddeana</i> :—Glossy dark purple bells. Very rare and distinct....	.75
C. <i>rapunculoides</i> :—2 ft. Large purple hanging bells; invasive.....	.35
C. <i>rotundifolia</i> (Scotch Blue Bell):—Clear blue bells. Aug. to Oct.....	.35
C. <i>rotundifolia alba</i> :—A lovely snow-white Scotch Blue Bell.....	.75
C. <i>rotundifolia</i> , Purple Gem:—8-12 in. Smaller flowers of the most glorious shade of deep purple. Much more floriferous than the ordinary Scotch Bluebell. We consider it is the best Rock Garden Campanula in our list50
C. <i>sarmatica</i> :—12 in. Grey leaves; light blue blooms. August.....	.50
C. <i>Scheuchzeri</i> :—10 in. Dark blue, very fine variety of Scotch Bluebell,	.35
C. <i>trachelium</i> :—18 in. Tall spikes of lilac-blue in July.....	.35
C. <i>turbinata</i> :—3 in. The true plant. Like a dwarf C. <i>carpathica</i>50
C. <i>valdensis</i> :—A gray foliaged, very fine Harebell.....	.50
CATANANCHE <i>caerulea</i> :—12 in. Lovely blue daisies; rare.....	.50
CERASTIUM <i>glaciale</i> :—2 in. Foliage covered with white wool.....	.50
C. <i>tomentosum</i> :—4 in. Gray foliage; large white flowers.....	.35
CHIMAPHILA <i>umbellata</i> (Pipsissewa) 8 in. Evergreen; waxy pink bloom.	.35
CHIOGENES <i>hispidula</i> (Creeping Snowberry) Evergreen creeper.....	.35
CRYSANthemUM <i>alpinum</i> :—4 in. Single white daisies in Oct.; rare..	.35
C. <i>arcticum</i> :—10 in. Mass of white bloom in Oct.....	.35
CHrysogonUM <i>virginianum</i> :—4 in. Golden blooms all summer.....	.50
CHrysopsis <i>falcata</i> :—10 in. Many small yellow daisies.....	.35
C. <i>Mariana</i> 18 in. Larger plant and blooms than above, yellow.....	.35
C. <i>villosa nana</i> :—6 in. Gray foliage; many small yellow blooms.....	.35
Clintonia <i>borealis</i> :—6 in. Yellow bells in early spring; shade.....	.35
Collomia <i>debilis</i> :—Lovely sky-blue flowers. Exceedingly rare.....	\$1.00
Cornus <i>canadensis</i> :—6 in. White flowers, red berries, acid soil.....	.35
Coreopsis <i>auriculata</i> :—6 in. Large golden blooms in August.....	.50
C. <i>rosea nana</i> :—8 in. Masses of light pink daisies in August.....	.35
Coptis <i>trifoliata</i> :—3 in. Evergreen; large white flowers in May.....	.35
Corydalis <i>bulbosa</i> :—5 in. Ferny foliage; pink flowers in May.....	.50

<i>C. lutea</i> :	—10 in. Bright golden flowers over fern-like foliage.....	.50
<i>Cytisus decumbens</i> :	—8 in. A dwarf yellow flowered Broom; hardy..	\$1.00
<i>C. purpureus</i> :	—10 in. A rare purple-flowered dwarf Broom.....	\$1.00

CYPRIPEDIUM <i>acaule</i> (Common Pink Lady Slipper) Must have highly acid soil with plenty of humus in it. Difficult.....	.35
<i>C. arietinum</i> , Ram's Head Lady Slipper:—6 in. The rarest of our native Lady Slippers; brownish with rose colored lip shading into crimson	\$1.50
<i>C. parviflorum</i> :—12 in. Yellow slipper, slightly smaller than the next but more refined.....	.50
<i>C. pubescens</i> :—Yellow Lady Slipper. A fine easy orchid.....	.50
<i>C. Reginae</i> (<i>C. spectabile</i>):—Showy Lady Slipper. 18 in. Largest of the native Lady Slippers, pink and white blooms.....	.50
<i>Dalibarda repens</i> :—4 in. Evergreen; white flowers in July.....	.35
<i>Daphne cneorum</i> :—10 in. Evergreen; fragrant pink bloom in June.....	\$1.25
<i>D. mezerum</i> :— 2 ft. Deciduous; pink bloom in April.....	\$1.00
<i>Delphinium cinereum</i> :—12 in. Lovely blue flowers without spurs.....	.35
<i>D. Grandiflora</i> :—12 in. Similar to above but with spurs.....	.35
<i>D. grandiflora alba</i> :—A white form of the above.....	.35

DIANTHUS:—The pinks are truly indispensable in any Rock Garden. Give them a hot sunny place in lean soil.

<i>D. alpinus</i> :	—Mats of dark green foliage, covered with pink blooms..	.50
<i>D. Allwoodi-alpina</i> :	—6 in. Beautiful hybrid in many shades of pink..	.35
<i>D. arenarius</i> :	—6 in. Fringed white blooms. Late summer.....	.35
<i>D. arvernensis</i> :	—5 in. Rose-colored pink. Very fragrant.....	.35
<i>D. atrorubens</i> :	—18 in. Clusters of blood-red blooms.....	.35
<i>D. brevicaulis</i> :	—3 ft. Choice pink with rose-color blooms.....	.35
<i>D. caesius</i> :	—4-10 in. Clove scented flowers in several shades.....	.35
<i>D. carthusianorum</i> :	—12 in. Highly fragrant rose-colored flowers.....	.35
<i>D. cruentus</i> :	—Similar to atrorubens in color and habit.....	.35
<i>D. deltoides</i> :	—6 in. Small crimson flowers in early summer.....	.35
<i>D. deltoides alba</i> :	—White form of above.....	.35
<i>D. deltoides</i> , Maj. Stern's var.:	—Dark foliage and dark red flowers..	.35
<i>D. furcatus</i> :	—6 in. Blue-green cushion; rose-colored Pinks.....	.50
<i>D. glacialis</i> :	—3 in. A rare and tiny Pink; not difficult.....	.50
<i>D. Knappi</i> :	—10 in. Yellow blooms in July.....	.35
<i>D. monspessulanus</i> :	—6-10 in. Flowers up to 2 in. across bright rose-color, petals lacinated into a real fringe: inodorous but good.....	.35
<i>D. myrtinervius</i> (<i>D. peristeri</i>):	—2 in. A condensed little pink. Blooms very profusely, relatively large rose-purple flowers.....	.35
<i>D. neglectus</i> :	—4 in. Large deep-pink blooms. Beautiful.....	.50
<i>D. noeanus</i> :	—6 in. Spiny mats with pale pink intensely fragrant fringed flowers, rare.....	.50
<i>D. plumarius</i> :	—10-14 in. Fragrant grass pink Midsummer35
<i>D. Sternbergi</i> :	—6 in. Fragrant, rose-colored fringed flowers.....	.35
<i>D. subacaulis</i> :	—3 in. Very dwarf with numerous purple blooms.....	.35
<i>D. Sundermanni</i> :	—10 in. Fragrant, fringy white flowers. June....	.35
<i>D. superbus</i> :	—15 in. Fragrant, lacy white flowers, tinted lavender..	.35
<i>D. sylvestris</i> :	—6 in. A fine rose-colored Pink that is easy.....	.50
<i>D. Tiny Rubies</i> :	—4 in. Miniature rose-colored Carnations.....	.50
<i>Diapensia lapponica</i> :	—2 in. Very rare, very difficult.....	\$1.00
<i>Dicentra eximia</i> :	—19 in. Western Bleeding Heart. Everblooming....	.35
<i>D. formosa alba</i> :	—Much like the above, but white flowers.....	\$1.50
<i>Digitalis Thapsi</i> :	—18 in. A beautiful pink little Foxglove50
<i>Dodecatheon Cusickii</i> :	—6 in. Rose color with yellow center.....	.35
<i>D. media</i> :	—12-15 in. Pale rose-colored flowers. Late spring.....	.35
<i>Douglasia montana</i> :	—2 in. Green rosettes with pink blooms.....	.75
<i>D. vitaliana</i> :	—2 in. Yellow flowers over hard green tufts.....	.50

DRABA:—A genus of mountain plants that are among the best for little crevices in the rocks. All are very early bloomers and very hardy.

<i>D. aizoides</i> :	—2 in. Spiny, dark green rosettes, golden yellow bloom..	.35
----------------------	--	-----

D. armata:—2 in. Much like the above, but much rarer.....	.50
D. androsace (D. lactae):—3 in. White blooms over loose cushions..	.35
D. arabisans:—5 in. Large white flowers in May. Very pretty.....	.35
D. bertoloni:—A much enlarged D. aizoides. One of the best.....	.35
D. fladzинensis:—4-5 in. Lovely. White flowers in May.....	.35
D. Hainoldi:—2 in. Golden flowers on spiny green cushions.....	.35
D. olympica:—On a mossy mound sit golden crosses.....	.50
D. siberica:—A green trailing plant sprinkled with gold.....	.35

DRYAS Drummondi:—1 in. Half open yellow flowers in July.....	\$1.00
D. integrifolia:—1 in. Smallest of the Dryas. White flowers.....	\$1.00
D. Sundermanni:—4 in. Large creamy-white flowers.....	.75

EDRAIANTHUS graminifolius:—4 in. Grass-like foliage, blue blooms, .50
--

EMPETRUM nigrum:—2 in. Difficult Arctic plant. Acid soil, shade. \$1.00
--

EPIGAEA repens, Trailing Arbutus:—2 in. Difficult. Acid soil.... .50

EPILOBIUM Fleischeri:—8 in. Deep purple blooms in late summer. Very rare and very good. Give full sun.75
--

EPIMEDIUM :—Very decorative foliage with spikes of pretty flowers. Must have shade and plenty of humus in the soil.
--

E. alpinum var. rubrum:—A sort growing 10 in. high, red flowers.....	.50
E. lilaceum:—Lilac-rose flowers50
E. macranthum coccineum:—10 in. Strong plants, deep red bloom....	.50
E. macranthum niveum:—10 in. Fine creamy-white flowers.....	.50
E. pinnatum sulphureum:—10 in. Lovely yellow blooms.....	.50
E. Youngianum:—8 in. Pure white flowers; rare.....	.75

ERICA , Winter Beauty:—10 in. A very compact growing Heath with many deep pink flowers in early spring.....
--

ERIGERON alpinus:—12 in. A lovely lilac daisy; blooms all summer. .35	
E. compositus:—3 in. Lavender daisies in midsummer.....	.50
E. commixtus:—A lovely white Rocky Mt. daisy; rare.....	.35
E. hyssopifolius:—8 in. Grass-like leaves; bluish-white daisies.....	.35
E. macranthus:—20 in. Large light-blue blooms in midsummer.....	.35
E. speciosus:—20 in. Large lilac-colored daisies in August35
E. trifidus:—3 in. A gray foliage plant growing in a little dense mound and covered with pink daisies in July. Very rare.....	.50

ERINUS alpinus:—5 in. Reddish purple bloom. June.....
--

E. alpinus albus:—White flowered form of the above.....

E. alpinus, Dr. Hanelle:—A superb form with crimson flowers.....
--

ERIOGONUM ovalifolium:—6 in. Silvery foliage, cream-color heads..
--

E. piperi:—Like the above with green foliage. Very rare.....
--

E. umbellatum:—6 in. Deep yellow umbels over very pretty foliage. .50

ERIOPHYLLUM lanatum:—10 in. Bright yellow bloom in July.....

ERODIUM :—An outstanding genus of Rock Garden plants. Foliage and flowers alike are lovely; it blooms all summer and it is easy to grow.	
E. chamaedroides rosea:—2 in Pink flowers over tiny green foliage..	.75
E. cheilanthifolium:—3 in. Crinkled grey foliage, flowers blush.....	\$1.00
E. chrysanthum:—4 in, Beautiful silvery foliage and yellow flowers..	\$1.00
E. Guicciardi:—6 in. The most beautiful Erodium in existence. Farmer describes the foliage as "All gleaming with flat silver." Large pink flowers	\$1.50
E. hybridum:—As rare a plant as the above. Green finely cut foliage and many large white flowers with large pink patch in the center. 1.50	1.50
E. macradanum:—6 in. Delicate green fern-like foliage with pink flowers spotted with black. Blooms all summer.	\$1.00

E. Manescavi:—12 in. Large plants and large dark red flowers.....	.50
E. Mitchell's Ivory:—6 in. As beautiful foliage as Guicciardi; flowers of beautiful form and ivory-white color. Only a few plants.....	\$1.50

ERYSIMUM pumilum:—4 in. Sulphur-yellow flowers in July.....	.35
E. purpureum:—3 in. Purple flowers in midsummer; rare.....	.50

ERYNGIUM alpinum:—2 ft. Blue stems and small blue flowers.....	.35
---	-----

EUPHORBIA cyparissus:—8 in. Finely cut foliage, yellowish bracts..	.35
E. myrsinites:—2 in. Circular mats of beautiful glaucus foliage.....	.35
E. polychroma:—16 in. Beautiful with its heads of golden bracts.....	.35

EUONYMUS colorata:—Evergreen vine, foliage turns to red.....	.50
E. kewensis:—2 in. A beautiful vine for the Rock Garden.....	.50
E. radicans:—Low growing evergreen vine. Shiny dark leaves.....	.50
E. radicans variegata:—A beautiful variegated leaf form of above....	.50

FESTUCA glauca:—3 in. Dainty grey grass for niches in rocks.....	.35
---	-----

FERNS FOR THE ROCK GARDEN SEE PAGE 25

GALAX aphylla:—8 in. Wands of small white blooms in midsummer..	.50
--	-----

GAULTHERIA procumbens:—6 in. Wintergreen; bright red berries..	.35
---	-----

GENISTA (Brooms):—The varieties listed below are all hardy.

G. cinerea:—2 ft. Bright golden flowers in early summer.....	.75
G. pilosa:—Grey-green foliage; yellow flowers in May.....	.75
G. prostrata:—3 in. Prostrate foliage bloom in July.....	.75
G. radiata:—18 in. Silvery bushes. Yellow flowers in July.....	.75
G. sagittalis:—10 in. Broad winged branches, flowers yellow.....	.75
G. tinctoria fl. pl.;—6 in. A prostrate variety with sheets of double golden hued flowers in July.....	\$1.00

GENTIANA acaulis:—4 in. Lovely blue trumpets in spring.....	\$1.00
--	--------

G. algida (G. Romanzovii) 6 in. Creamy-white trumpets; difficult..	\$1.00
--	--------

G. Andrewsii:—18 in. Our native closed Gentian.....	.35
---	-----

G. calycosa:—8 in. Velvety blue trumpets with white throats.....	\$1.00
--	--------

G. gracillipes:—Prostrate; best of the cluster-head Gentians.....	\$1.00
---	--------

G. septempfida:—5 in. One of the best; fall bloomer.....	\$1.00
--	--------

G. linearis:—12 in. Light-blue closed flowers; very good.....	.50
---	-----

GERANIUM cinereum:—5 in. Ashy-gray foliage; light pink flowers..	.75
---	-----

G. Endressi:—Deep rose-colored flowers.....	.75
---	-----

G. grandiflorum:—12 in. Light-blue flowers in July.....	.50
---	-----

G. Ibericum-Platypetalum:—12 in. violet flowers with dark markings.	.75
---	-----

G. lancastriense:—3 in. Prostrate; rose-colored flowers.....	.75
--	-----

G. maculatum:—8 in. Light purple flowers in August.....	.35
---	-----

G. maculatum album:—A rare snow-white form of the above.....	.50
--	-----

G. nepalense:—A decumbent geranium with rose-purple flowers.....	.75
--	-----

G. pretense:—12-18 in. Large lavender flowers all summer.....	.50
---	-----

G. pretense alba:—A pure white form of the above; rare.....	.50
---	-----

G. Renardi:—8 in. Blush pink veined with purple. Very rare.....	.75
---	-----

G. Russell Pritchard:—12 in. Gray foliage; rose colored flowers....	.75
---	-----

G. sanguineum:—12 in. Rich carmine bloom in late summer.....	.35
--	-----

G. sanguineum album:—A dwarf white form of the above.....	.75
---	-----

G. sanguineum alpinum:—4 in. A carmine flowered dwarf form....	.75
--	-----

G. striatum:—10 in. Flowers white veined with pink.....	.35
---	-----

G. subcaulescens:—6 in. Pink flowers with dark centers. Rare.....	.75
---	-----

G. Wallichianum:—12 in. Purple flowers 2 inches across.....	.75
---	-----

GEUM Borissi:—8 in. Evergreen; orange-red flowers in August.....	.35
---	-----

G. heldrichii:—10 in. A fine Geum; orange-red bloom.....	.35
--	-----

G. peckii:—10-12 in. Large golden flowers in late summer.....	.50
G. rivale, Leonard's Var:—12 in. Coppery rose bloom in July.....	.35
G. Rossi:—6 in. A golden flowered beauty from the Arctic.....	.35
G. sylvaticum:—10 in. Many 1 inch golden flowers in midsummer....	.75
GLOBULARIA: — The Globe Daisies are among the finest Rock plants. Plant in dry soil in full sun. Very easy.	
G. bellidifolia:—2 in. Has little light blue ball-like blooms.....	.35
G. cordifolia:—4 in. Makes hard green mats with blue fuzzy balls:..	.35
G. cordifolia alba:—A rare form of the above with balls of white....	.50
G. repens:—1 in. The smallest of the Globularias. Light blue heads	.50
G. vulgaris:—12 in. Large heads of deep blue and many of them....	.35
GOODYERA pubescens:—8 in. Evergreen with spikes of creamy flowers. .35	
G. repens:—4 in. Much like the above but smaller.....	.35
GYPSOPHILA cerastoides:—2 in. White flowers with black markings..	.50
G. repens:—Creeper with snow white flowers in late summer.....	.35
G. repens rosea:—A pink flowering form of the above.	.35
HEDYSARUM boreale:—6 in. Bright pink pea-flowers in July. Rare. .75	
HELLEBORUS niger (Christmas Rose) Large white flowers in April...\$1.25	
HELIANTHEMUM alpestris:—4 in. Masses of yellow flowers.....	.35
H. Apricot:—Name shows color. Glossy foliage.....	.50
H. Ben Ledi:—Large crimson lake colored flowers.....	.50
H. Double Yellow:—Described in name.....	.50
H. Double Orange:—Lovely double orange-colored blooms.....	.50
H. Double Red, "Fireball":—Double dark red flowers.....	.35
H. Mrs. Mound:—English variety with fringed petals of salmon.....	.50
H. tuberaria:—4 in. Glossy leaves and large golden flowers, rare.....	.75
HELICHRYSUM anatolicum:—8 in. Woolly Gray leaves, yellow flowers. .50	
H. bellidoides:—2 in. Small heads of silvery white flowers.....	.50
HEPATIC acutilobia:—6 in. Pink flowers in April.....	.35
H. acutiloba alba:—A white flowering form of the above.....	.35
H. acutiloba caerulea:—A rare blue variety.....	.50
H. americana:—4-6 in. The smaller acid soil Hepatica.....	.35
HEUCHERA (Coral Bells) We offer the best varieties below:	
H. brizoides:—8-10 in. Spikes of small pink flowers.....	.35
H. Pluie de Feu:—12 in. Very bright red. Choice.....	.50
H. LaPerle:—15-20 in. A fine variety of deep pink.....	.35
H. Rosemonde:—15-20 in. Bright pink bells; very floriferous.....	.35
H. sanguinea:—12 in. The common red "Coral Bells".....	.35
H. villosa:—12 in. A white flowering species; pretty foliage.....	.50
HIPPOCREPIS comosa:—2 in. Trailer with yellow flowers.....	.35
HORMINUM pyrenaicum:—8 in. Downy rosettes, violet colored spikes. .35	
H. pyrenaicum album:—A white form of the above, rare.....	.50
HOSTA minor alba:—12 in. A lovely dwarf, white flowered variety....	.50
H. Thomas Hogg:—12 in. Green leaves edged white, blue flowers....	.35
H. variegata:—12 in. Leaves variegated: flowers blue.....	.35
HOUSTONIA caerulea:—3-4 in. Bluet. Blooms all summer.....	.35
H. longiflora:—4-6 in. White, bell-like flowers all summer.....	.35
H. serpyllifolia:—3 in. Little china-blue flowers all summer.....	.35
HUDSONIA tomentosa:—8 in. Fine gray foliage; yellow bloom, rare...50	

HYSSOPUS officianalis alba: —15 in. The white flowered Hyssop.....	.35
H. officianalis rosea: —A pink flowered form of the above.....	.35

HYPERICUM: —This genus contains some of the best plants for hot dry places. Gold, polished gold is the color here.	
H. fragile: —A lovely creeper, with 1½ in. blooms.....	.35
H. maculatum: —12 in. Lovely panicles of inch golden suns.....	.35
H. olympicum: —Trailer with extra large flowers.....	.35
H. repens: —Very much like <i>H. olympicum</i>35

IBERIS:—Low evergreen perennials almost shrubs, bloom late summer.

I. Little Gem: —6 in. Neat low habit, snow-white heads in July.....	.35
I. pygmea: —3 in. Evergreen masses covered with small white flowers	.75
I. saxatilis: —2 in. Green clumps with pure white flowers.....	.75
I. sempervivens: —8 in. Flowers white ageing lilacs. Very good, easy.	.35
I. Snowflake: —8 in. Drifts of snow in late summer.....	.35

INULA ensifolia: —Small plant with yellow blooms all summer.....	.35
---	-----

IRIS:—The following varieties of Iris are all dwarf varieties and are among the finest of Rock Garden plants.

I. arenaria: —3 in. Bright canary yellow50
I. chamaeiris Campbelli: —5 in. Sky blue and purple.....	.75
I. cristata: —Shades of lavender.....	.35
I. cristata alba: —Pure white flowers in July.....	.75
I. chrysographes: —12 in. Deep velvety violet, this is a fine Chinaman.	.50
I. ensata: —6 in. Lilac to white flowers. Native of China. Very good.	.50
I. gracilipes: —8 in. Dainty blue flowers, orange crest. From Japan.	.50
I. graminea: —Grassy tufts with fragrant blue and white flowers.....	.50
I. lacustris: —3 in. Much like cristata but about half as large.....	.75
I. mellita: —6 in. Brown-purple varying to yellow; fragrant; rare.....	.50
I. missouriensis: —12 in. Large pale blue flowers. Not common in East.	.50
I. pumila: —5 in. Very large purple flowers in early spring.....	.35
I. pumila alba: —6 in. Large creamy-white flowers in May.....	.35
I. pumila. La Fiancee: —8 in. Pure white, very large flowers.....	.35
I. pumila lutea: —7 in. Large light yellow blooms in May.....	.35
I. pumila, Orange Queen: —8 in. A deep yellow self.....	.50
I. rubra-marginata: —4 in. Lurid red flowers; very rare.....	.50
I. ruthenica: —8 in. Rare Balkan Iris. General color, violet purple.....	.50
I. Setosa Canadensis: —12 in. A fine light blue Iris from Canada.....	.35
I. tectorum: —12 in. Broad foliage, very large dark lilac flowers.....	.50
I. verna: —4 in. Grass-like foliage. Amethyst-blue flowers. Very good.	.35

JASIONE perennis: —6-8 in. Pretty heads of deep blue flowers. July.	.35
--	-----

KALMIA polifolia: —8-10 in. Evergreen. Rose-purple flowers July..	.75
--	-----

LAMIUM maculatum: —5 in. Trailer. Rose-purple bloom. Midsummer.	.35
L. maculatum alba: —A lovely white form of the above.....	.50

LATHYRUS vernus roseus: —Bright rose-colored pea flowers.....	.35
--	-----

LAVENDULA officinalis: —10-12 in. The true Lavender.....	.35
---	-----

LEDUM groenlandicum: —12 in. Large umbels of white flowers.....	.75
--	-----

LEIOPHYLLUM buxifolium: —8 in. The Sand Myrtle of N. Carolina.	\$1.50
---	--------

LEONTOPODIUM alpinum: —6-12 in. The celebrated Alpine Edelweiss of the Alps. Curiously wooly flower heads. Not difficult.....	.50
--	-----

LESQUERELLA condensata: —3 in. Gray rosettes; bright golden crosses.	.50
---	-----

LEWISIA pygmaea:—2 in. White flowers in spring:.....	.50
L. rediviva:—3 in. Very large pink flowers.....	.50
LIATRIS punctata:—12 in. Dwarf form; purple flowers.....	.50
LIMONIUM incana nana:—Large trusses of creamy-white flowers.....	.35
L. latifolium:—15 in. Trusses of tiny blue flowers.....	.35
LINARIA pallida:—Trailer with many small flowers in lilac and gold..	.35
L. pallida alba:—2 in. A white form of the above.....	.35
L. repens:—12 in. Fragrant white flowers with purple veins.....	.35
LINNAEA Americana:—3 in. A lovely little woodlander.....	.35
LINUM (Flax):—A very graceful and handsome genus of plants that should be planted in a dry, lean soil in full sun.	
L. Alpinum:—8 in. A plant from the Alps with great cups of blue..	.35
D. altaicum:—Much like L. perenne, but not as tall and earlier.....	.35
L. austriacum:—Large dark blue flowers on 2 ft. stems.....	.35
L. capitatum:—9 in. Large golden blooms in midsummer.....	.35
L. flavum:—18 in. A very good yellow flowered flax. Midsummer..	.35
L. narbonense:—6-10 in. Sky-blue flowers all summer.....	.35
L. perenne:—8-12 in. Lovely light-blue cups all summer.....	.35
L. perenne-album:—A white form of the above.....	.35
L. tenuifolium:—1 ft. Large blush-pink blooms. Rare.....	.75
LOISELEURIA procumbens:—2 in. Arctic alpine plant.....	\$1.00
LOTUS corniculatus:—Pea-like yellow bloom. Aug. and Sept.....	.35
L. corniculatus fl. pl.:—2 in. Double form of above.....	.35
LUTKEA pectinata:—3 in. Cream-colored flowers: rare.....	.75
LYCHNIS :—These fine old-fashioned perennials are easily grown.	
L. alpina:— 4 in. A fine little plant with rosy flowers in June.....	.35
L. alpina alba:—4 in. A lovely white form of the above.....	.35
L. Flos-Jovis:—10 in. Grey leaves; light pink bloom in July.....	.35
L. viscaria:—Evergreen. Spikes of deep red in July. Fragrant.....	.35
L. viscaria fl. pl.:—Double flowering form of the above.....	.35
MALVASTRUM coccineum:—Prostrate with large orange-red blooms.	.50
MAHONIA aquifolium:—1 ft. The Oregon Grape; hardy here.....	\$1.25
MATRICARIA oreades:—White daisies, dense tufts, fern-like leaves..	.35
M. Tchihatchewii:—Much like the above. Both good rock plants....	.35
MAZUS reptans:—1 in. Delicate orchid-color blooms. Late summer.	.35
MERTENSIA oblongifolia:—8 in. A lovely native of the Rocky Mts...	.50
M. virginica:—Has pink buds and blue bells. Fine.....	.35
MICROMERIA croatica:—10 in. Masses of violet flowers; midsummer.	.50
MITCHELLA repens:—1 in. Evergreen creeper. Red berries, winter.	.35
MYOSOTIS alpestris:—6 in. About the best of the Forget-me-nots..	.35
M. palustris:—4-6 in. Trailing Forget-me-nots for moist spot.....	.35
NEPETA mussini:—6-8 in. Covered in spring with lavender flowers..	.35
N. Souvenir Andre Chaudron:—10-15 in. Dark blue. Midsummer...	.35
N. "Six Hills" Variety:—A fine variety of Nepeta with extra large blooms. Originated by Clarence Elliott.35
N. nuda:—The finest of the Nepetas. Much like mussini.....	.50

OENOTHERA caespitosa:—Trailer with large white flowers.....	.50
<i>O. missouriensis</i> :—Trailer with large golden flowers.....	.35
<i>O. perennis</i> :—Trailer with many small yellow flowers.....	.35
OMPHALODES cappadocica:—6 in. Lovely skyblue flowers in early spring. About the best clear blue flower in cultivation.....	.50
<i>O. verna</i> :—6 in. Much like the above.....	.50
<i>O. verna alba</i> :—A white variety of the above; is very neat.....	.50
ONONIS fruticosa:—12-36 in. A prickly shrub-like perennial with pink blooms in late summer. Very rare.....	.75
<i>O. fruticosa prostrata</i> :—10 in. A prostrate form of fruticosa.....	\$1.00
<i>O. rotundifolia</i> :—12 in. Pink blooms in midsummer.....	\$1.00
ORNITHOGALUM umbellatum:—8 in. Grandmother's Star of Bethlehem	35
PAPAVER alpinum:—6 in. Delicate poppy, shades pink, white, yellow. .35	
<i>P. nudicaule</i> :—12-18 in. Yellow, cream and white poppies.....	.35
<i>P. rupifragum</i> :—Much like above, except color is brick red.....	.35
PARADISEA Lilastrum:—St. Bruno-lily. 18 in. White lily-like blooms. .35	
PARNASSIA caroliniana montana:—6-8 in. A dwarf mountain form.. .35	
PARONYCHIA argentea:—A carpeting plant with yellowish foliage. .35	
Fine for dry places35
<i>P. nivea</i> :—Like the above but bright green foliage.....	.35
PENSTEMON :—Give these plants the best of drainage in full sun and poor soil. There are none better than the following:	
<i>P. alpinus</i> :—1 ft. Flowers bluish-purple and large.....	.50
<i>P. aridus</i> :—5 in. One of the smallest. Flowers purple.....	.50
<i>P. caelestinus</i> (<i>P. missouriensis</i>) 8-10 in. One of the best blues.....	.50
<i>P. calycosus</i> :—2 ft. Large lavender and white blooms.....	.35
<i>P. Cardwelli</i> :—8 in. Evergreen shrub; large purple blooms.....	.50
<i>P. Cobaea</i> :—18 in. Big purple flowers.....	.50
<i>P. erianthera</i> :—12 in. Lilac purple flowers.....	.50
<i>P. fruticosus</i> :—10 in. A shrubby Penstemon with blue flowers.....	.75
<i>P. glaber</i> :—18 in. Heavy glaucus foliage; light blue flowers.....	.50
<i>P. humilis</i> :—10 in. A herbaceous species with dark blue flowers.....	.50
<i>P. nitidus</i> :—8 in. Glaucus blue rosettes, sky blue flowers.....	.50
<i>P. Ovatus</i> :—3 ft. Large plant; deep blue flowers.....	.50
<i>P. procerus</i> :—10 in. Spikes of dark blue flowers.....	.50
<i>P. Scouleri</i> :—10 in. Dwarf shrub with lilac-blue flowers.....	.75
<i>P. Torreyi</i> :—2 ft. Long scarlet flowers all summer.....	.35
<i>P. Torrreyi rosea</i> :—A pink flowering form of the above.....	.35
PETROPHYTUM cinerascens:—4 in. Tiny creeping shrub with white blooms35
PHLOX :—Suitable for Rock Gardens. The list below includes not only the best of the subulata group, but also many of the cultavitable native species. Every variety listed is a fine Rock Garden plant.	
<i>P. andicola</i> :—3 in. A tiny species with white flowers; rare.....	.75
<i>P. amoena</i> :—8 in. One of the best of the pink dwarfs.....	.35
<i>P. bifida</i> :—10 in. Lavender to deep purple; very good.....	.35
<i>P. caespitosa</i> :—A Rocky Mt. needle phlox; white to lavender.....	.75
<i>P. divaricata</i> :—12-18 in. Shades of blue; easy in shade.....	.35
<i>P. Douglasi</i> :—2 in. From the Rockies, not easy; lilac blooms.....	.75
<i>P. glaberrima</i> :—12 in. Mauve to purple flowers in July; easy.....	.35
<i>P. ovata</i> :—6 in. A good pink phlox for sun or shade.....	.35

<i>P. procumbens</i> :	—A creeping hybrid having bluish flowers.....	.50
<i>P. rigida</i> :	—One of the needle species with white flowers.....	.75
<i>P. stolonifera</i> :	—A creeping species with pink flowers.....	.35
<i>P. subulata</i> , named varieties below are best.		
<i>Alba</i> :	—Pure white35
<i>Arbutus</i> :	—Small pink blooms. Forms clumps like vivid.....	.35
<i>Apple Blossom</i> :	—Pale pink35
<i>Atropurpurea</i> :	—Dark red35
<i>Brittonii</i> :	—White with lilac.....	.35
<i>Blue Hill</i> :	—Lavender almost blue35
<i>Camla</i> :	—Glistening salmon-pink, large flowers.....	.75
<i>Jersey Blush</i> :	—Blush-pink35
<i>Sneewitchen</i> :	—Small snow-white blooms; forms clumps like vivid.....	.35
<i>Vivid</i> :	—Salmon-pink; does not creep but forms clumps.....	.50

PHYLLODOCE caerulea:—An American heather with pale blue bells.. \$1.00
P. empetriformis:—6 in. A Pacific Coast heather with reddish balls.. \$1.00

PHYSOSTEGIA Vivid:—18 in. A dwarf deep pink variety..... .35

PHYTEUMA hemisphericum:—Grass-like tufts; heads of blue bells.... .50

PLATYCODON Mariesii:—1 ft. Large blue bells in August..... .50
P. Mariesii album:—A white form of the above..... .50

POLEMONIUM Haydenii:—6 in. Sky-blue flowers. One of the best.. .50
P. pulcherrimum:—8 in. Violet-blue; very fine..... .75
P. repens:—6 in. Mass of blue in July..... .35
P. Richardsoni:—12 in. Blue to purple; rare..... .75

POLYGALA paucifolia:—4 in. Rose-colored flowers; acid soil..... .50

POLYGONUM affine:—Spikes of bright pink flowers..... .50
P. capitatum:—Two inch creeper pretty foliage, pink heads..... .50

POTENTILLA:—Below are only the best of this large genus.

<i>P. alba</i> :	—4 in. The finest of the dwarf white Potentillas.....	.35
<i>P. fruticosa montana</i> :	—10 in. A dwarf mountain form. Golden bloom. \$1.00	
<i>P. fruticosa Purdomi</i> :	—2 ft. Lemon-colored flowers all summer....	\$1.50
<i>P. fragiformis</i> :	—5 in. Gray leaves; large golden flowers; rare; good..	.75
<i>P. navadensis</i> :	—2 in. Silvery foliage, golden flowers, very rare.....	.50
<i>P. nivea</i> :	—Gray foliage, yellow flowers; an Arctic plant.....	.50
<i>P. pyrenaica</i> :	—6 in. A beautiful easy yellow flowered species.....	.35
<i>P. rupestris</i> :	—12 in. A beautiful plant with large white flowers.....	.50
<i>P. Tonguei</i> :	—3 in. A lovely, rare apricot hybrid.....	.75
<i>P. tridentata</i> :	—5 in. Glossy evergreen foliage; white flowers.....	.35
<i>P. verna aurea</i> :	—3 in. Golden flowers on dense dark green mounds....	.35
<i>P. villosa</i> :	—6 in. Golden saucers over gray foliage.....	.35
<i>P. Warrensi</i> :	—2 ft. Very showy; large golden flowers all summer....	.35

PRIMULA:—This genus requires damp rich soil with shade for many species.
 The varieties offered below are hardy here.

<i>P. auricula alpina</i> :	—6 in. Thick glaucus leaves; flowers many colored...	.35
<i>P. cashmeriana</i> :	—10 in. Violet flowers in large heads, easy.....	.50
<i>P. denticulata alba</i> :	—Large snow-white heads.....	.50
<i>P. duplex</i> (Hose-in-hose):	—6 in. Double decked cream-colored primrose	.35
<i>P. farinosa</i> :	—Lilac-purple flowers in many flowered umbels.....	.50
<i>P. frondosa</i> :	—A pretty mealy-leaved species with lavender flowers....	.50
<i>P. Juliae</i> :	—3 in. Dainty little species with large lilac flowers.....	.50
<i>P. Juliana hybrids</i> :	—3-5 in. The hybrids listed below are all easy.....	
<i>Dorothy</i> :	—Yellow lemon self, rare.....	\$1.00
<i>Helen Purpurkissen</i> :	—Deep claret-red.....	.50
<i>Primrose Lodge</i> :	—Rosy purple50
<i>Sneekissen</i> :	—The best pure white, lovely and rare.....	\$1.00
<i>Wanda</i> :	—Reddish purple50

<i>P. japonica</i> , Etna:—2 ft. Large red flowers in whorls; late summer..	.75
<i>P. japonica alba</i> :—2 ft. White flowers with a hint of pink.....	.50
<i>P. mistassinica</i> :—3 in. Small and choice, mauve-pink bloom, Spring..	.75
<i>P. mistassinica alba</i> :—White form of above. Both are difficult.....	\$1.00
<i>P. polyantha</i> :—6 in. Old and good. Mostly red with yellow eye....	.35
<i>P. polyantha</i> "Golden Beauty":—6 in. A golden yellow Polyantha....	.35
<i>P. pudibunda</i> :—8 in. Yellow flowers in open umbels; rare.....	.75
<i>P. sieboldi</i> :—Rose-colored flowers in loose heads. One of the best....	.50
<i>P. sieboldi alba</i> :—Glorious white form of the above.....	.75
<i>P. sieboldi rosea alba</i> :—French-gray, reverse of petals bright pink....	\$1.00
<i>P. veris</i> :—6 in. The common wild cowslip of England.....	.35
<i>P. Viscosa</i> :—6 in. Foliage much like auricula; flowers lilac pink....	.75

PRUNELLA *Webbiana*:—5 in. Heads of purple flowers in August.... .35

PTEROCEPHALUS *parnassi* (*Scabiosa parnassi*) 4 in. Ready fall, 1948. .50

PULMONARIA *angustifolia*:—6 in. Sheets of azure blue in spring.... .35
P. saccharata, Mrs. Moon:—6 in. Pink turning to blue flowers..... .50

RANUNCULUS *gramineus*:—10 inch. Grass-like foliage with butter-cups one inch across. Rare and good..... .75
R. montanus:—5 in. A showy dwarf buttercup from the Alps..... .50
R. repens fl. pl.—4 in. A double form of Buttercup..... .35

SAGINA *glauca*:—1-2 in. Dense mats of emerald green with many small white flowers resting on the foliage..... .35

SANGUINARIA *canadensis*, Bloodroot:—6 in. Large snow-white flowers in early spring. Give it light shade..... .35
S. canadensis fl. pl.: (Double Bloodroot):—Like little snow-white double roses. 20 to 40 petals in each bloom when established. One of the loveliest and easiest Rock plants in cultivation..... \$2.50

SALIX *Uva-ursi*:—6 in. A tiny shrub with glossy leaves that creeps along the ground in the Arctic regions..... \$1.00

SALVIA *Jurisicci*:—10 in. Violet flowers all summer..... .75
S. nemorosa:—18 in. A hardy sage with violet blooms..... .50
S. patens:—10-12 in. Pretty blue flowers on long stems..... .35

SANTOLINA *incana*:—10 in. Silvery, aromatic and beautiful foliage.. .35

SAPONARIA *caespitosa*:—4 in. Mounds of dark green leaves, pink flowers.75
S. ocymoides:—A trailing plant with many pink blooms..... .35

SATUREJA *montana* (Winter Savory) 10 in. Clouds of white flowers.. .35
S. pygmaea:—A little smaller than the above..... .35
S. stenophylla:—10 in. Clouds of lavender flowers..... .35

ENCRUSTED SILVER SAXIFRAGES

SAXIFRAGA <i>aizoon</i> :—8 in. Encrusted rosettes; cream colored flowers.	.50
<i>S. aizoon balkana</i> :—6-10 in. A variety of above with pink flowers....	.50
<i>S. aizoon cultrata</i> :—10 in. Lovely rosettes, creamy flowers.....	.50
<i>S. aizoon densa</i> :—Small dark green rosettes heavily encrusted.....	.50
<i>S. aizoon Hainoldi</i> :—10-12 in. Deep rose-colored flowers in June....	.50
<i>S. aizoon lutea</i> :—A yellow flowering variety of aizoon.....	.50
<i>S. aizoon marginata</i> :—12 in. Introduction of Clarence Elliott. Has large beautifully silvered rosettes with fine sprays of white bloom.	.50
<i>S. aizoon rosea</i> :—A pink flowering form.....	.50
<i>S. aizoon "Portae"</i> :—12 in. One of the finest of the saxifrages.....	.50

S. altissima:—18 in spires of white flowers over handsome narrow-leafed rosettes50
S. baldensis:—The smallest of the encrusted type.....	.50
S. cochlearis minor:—A very charming little Saxifrage with domes of heavily lime-encrusted rosettes with white flowers on 4 inch stems.50
S. Hosti:—10-12 in. A fine specie with heavily encrusted, narrow foliage and cream colored flowers on red stems.....	.50
S. Icelandica:—One of the largest of encrusted type. Has great sprays of pure white flowers in July.....	.75
S. lingulata latoscana:—Similar to above, much praised by Farrer.....	.50
S. Macnabiana:—10-12 in. A heavily encrusted Saxifrage.....	.50
S. pectinata:—8 in. One of the finest of this class. Rosettes are white with the encrusting and has elegant sprays of white flowers.....	.50
S. pyramidalis:—24 in. Rosettes from 5 to 8 inches across, nicely silvered and carrying a heavy spray of white flowers.....	.50

MOSSY SAXIFRAGES

S. Bathoniensis:—3 in. Rosy-crimson flowers75
S. caespitosa:—2 in. Creamy-white flowers50
S. hypnoides—3 in. White flowers50
S. Mrs. T. Piper:—4 in. The best pink Mossie75
S. Trifurcata:—4 in. Snow-white flowers.....	.50
S. Hybrid, H. S. Stokes. Bright crimson flowers.....	.75

KABSCHIA SAXIFRAGES

S. apiculata:—3 in. Green spiny domes; light yellow flowers.....	.50
S. apiculata alba:—A white flowered variety of above.....	.50
S. Borisii:—3 in. Blue-gray rosettes; citron-yellow blooms.....	.75
S. Boydii alba:—2 in. Pure white flowers on red stems. Small plants.50
S. Burseriana:—Very large snow-white flowers in early spring.....	\$1.00
S. Buseriana sulphurea:—A pale yellow flowered form of above.....	.75
S. Buseriana magna:—The largest of the Buseriana group.....	\$1.00
S. Elizabethae:—Gray spiny mats and bright yellow flowers.....	.50
S. Faldonside:—Neat cushions with lovely pale-yellow flowers.....	\$1.00
S. Ferdinand Coburgi:—Moss-like foliage with bright yellow flowers in June50
S. juniperifolia:—Green juniper-like foliage, with yellow flowers.....	.75
S. marginata:—Encrusted rosettes with white flowers in June.....	.50
S. ochroeleuca:—Deep green rosettes with yellow flowers.....	.50
S. Petraschii:—2 in. Compact cushions with large white flowers....	.75
S. Primrose Bee:—A very free flowering hybrid; yellow flowers.....	.75

OTHER TYPES OF SAXIFRAGES

S. aizoides:—A creeping species, orange colored bloom; difficult.....	.75
S. arguta:—12 in. Round leaved rosettes white flowers.....	.50
S. austromontana:—4 in. Needle-like foliage; white flowers.....	.75
S. cortusaefolia:—8 in. Beautiful foliage: large white flowers.....	\$1.00
S. cuneifolia subintegra:—8 in. White flowers speckled gold and pink..	.75
S. granulata:—12 in. Deciduous, large sprays; white flowers.....	.35
S. magasia cordifolia:—10 in. Coarse foliage; bright pink flowers....	.35
S. Mertensiana:—8 in. Round glossy leaves; white flowers.....	.75
S. nivalis:—6 in. Much like our Eastern Saxifrage.....	.75
S. umbrosa primuloides:—8 in. Showers of small pink flowers.....	.75
S. oppositifolia:—1 in. Dark green mat; big purple flowers, shade...	\$1.00
S. virginiensis:—Our common eastern Saxifrage.....	.35

SEDUMS

SEDUM acre :—2 in. Green moss-like foliage; bright yellow flowers...	.35
S. acre minus:—1 in. Like the above but half as large.....	.35
S. alboroseum:—10 in. Foliage variegated; light pink flowers.....	.35

<i>S. album</i> :	—3 in. Trailing thick waxy foliage with white flowers.....	.35
<i>S. altissimum</i> :	—10 in. Yellow flowers over blue-green foliage.....	.35
<i>S. angelicum minus</i> :	—1 in. One of the smallest of the Sedums. Dark green creeping foliage and white flowers in midsummer.....	.35
<i>S. anopetalum</i> :	—Pale yellow flowers in July on 3 inch stems.....	.35
<i>S. bupleuroides</i> :	—8 in. Purple-red blooms in July.....	.35
<i>S. crassipes</i> (<i>S. asiaticum</i>)	8 in. Pretty yellowish-white flowers....	.35
<i>S. dasiphylum</i> :	—1 in. One of the smallest and most choice. Glaucous green foliage and light pink flowers.....	.35
<i>S. divergens</i> :	—Little plant with tiny fat, emerald green leaves.....	.35
<i>S. douglasii</i> :	—Mossy foliage with yellow flowers; rare.....	.35
<i>S. Ellacombianum</i> :	—6 in. Light yellow flowers in August.....	.35
<i>S. Eversii</i> :	—8-10 in. Rose-colored flowers in July.....	.35
<i>S. Fabaria</i> :	—12 in. Light purple leaves. Rose-color bloom. Sept...	.35
<i>S. Forsterianum</i> :	—4-6 in. Trailing blue-green leaves. Yellow bloom.	.35
<i>S. gracilis</i> :	—Very dwarf dark green foliage. White flowers.....	.35
<i>S. gypsocolon</i> :	—4 in. Very rare with white flowers in July.....	.75
<i>S. Hayesii</i> :	—1 in. A tiny glaucous-blue plant with purple flowers....	.50
<i>S. Hispanticum minus</i> :	—Mossy. Tiny glaucous blue leaves. Pink bloom.	.35
<i>S. hybridum</i> :	—3 in. A rare hybrid with curious foliage. Yellow...	.35
<i>S. Kamschaticum</i> :	—Handsome sedum with orange flowers.....	.35
<i>S. Kamschaticum variegatum</i> :	—A trailer with variegated foliage....	.35
<i>S. Lydium</i> :	—Very dwarf bronzy foliage and pink flowers.....	.35
<i>S. magallense</i> :	—3 in. Green mat with white flowers in August.....	.35
<i>S. middendorfianum</i> :	—Shrubby with brownish-yellow flowers. Fine..	.35
<i>S. monregalense</i> :	—4 in. White flowers in August and September.....	.50
<i>S. murale</i> :	—4 in. Purplish leaves. White flowers; pink centers ..	.35
<i>S. Nevii</i> :	—4-6 in. Pretty foliage and white flowers.....	.35
<i>S. nicaeense</i> :	—Blue-green fleshy foliage with yellow flowers.....	.35
<i>S. Oreganum</i> :	—4-5 in. Flowers yellow to pink. Red stems.....	.35
<i>S. populifolium</i> :	—10 in.. Shrub-like but dies down every fall.....	.50
<i>S. radiatum</i> :	—3-6 in. Grey foliage, yellow bloom in midsummer.....	.35
<i>S. reflexum</i> :	—Trailing foliage. large yellow flowers.....	.35
<i>S. rhodiolooides</i> (<i>S. integrifolium</i>):	—8 in. A pretty but difficult Rocky Mt. Sedum. Must have wet moraine. Deep purple flowers.....	.50
<i>S. rupestre</i> :	—Very pretty plant with golden yellow flowers.....	.35
<i>S. roseum</i> :	—8-10 in. Very rare. Yellowish flowers.....	.50
<i>S. sarmentosum</i> :	—Rapidly spreading kind. Yellow flowers in June...	.35
<i>S. sexangulare</i> :	—Much like <i>S. acre</i> but its golden sheet of bloom comes a month later.35
<i>S. sieboldi</i> :	—Round, red-edged leaves. Bright pink bloom. Aug.	.35
<i>S. spathulifolium</i> :	—A lovely but difficult little sedum Little glaucous blue rosettes often tinged red with white blossoms on 4 inch stems.	.50
<i>S. spectabile</i> :	—12-18 in. Erect growing with pink bloom. Sept.35
<i>S. spectabile</i> Brilliant:	—A dark pink form of Spectabile.....	.35
<i>S. spurium coccineum</i> :	—Rosy-crimson flowers in late summer.....	.35
<i>S. stenopetalum</i> :	—6 in. Deep green foliage. Golden flowers in July..	.35
<i>S. stolonifera</i> :	—Desirable Purplish-pink flowers in August35
<i>S. Stribyrii</i> :	—4 in. Rare. Evergreen foliage with golden flowers...	.50
<i>S. ternatum</i> :	—Spreading plant. Triangular sprays, white flowers....	.35
<i>S. Tatarinowi</i> :	—6 in. A new Sedum from China with pink flowers..	.75

SEMPERVIVUMS—HENS AND CHICKS

SEMPERVIVUM <i>acuminatum</i> :	—Medium sized light-green rosettes....	.35
<i>S. admontensis</i> :	—Bright green leaves tipped red and covered with many soft hairs35
<i>S. Alpha</i> :	—Rosy hued, hairy rosettes; lovely.....	.35
<i>S. arachnoideum piloselum</i> :	—Larger very hairy rosettes.....	.35
<i>S. arachnoideum minus</i> :	—Much smaller rosettes than the above....	.35
<i>S. arachnoideum Pilferum</i> :	—redder than Arachnoideum.....	.35
<i>S. arachnoideum piloselum</i> :	—Larger very hairy rosettes.....	.35
<i>S. arenarium</i> :	—tiny deep green rosettes. Quick multiplier.....	.35
<i>S. atroviolaceum</i> :	—Large rosettes with violet reflections.....	.50

S. <i>Beta</i> :	—Attractive coppery rosettes tufted with white hair.....	.35
S. <i>brauni</i> :	—Large deep-bronze rosettes with red tips.....	.35
S. <i>blandum</i> :	—Pale green medium-sized rosettes.....	.35
S. <i>calcareum</i> :	—Glaucous green rosettes with red tips.....	.35
S. <i>cornutum</i> :	—Light green rosettes with incurved leaves.....	.35
S. <i>Emberley's Pink</i> :	—A very fine seedling.....	.35
S. <i>Erythraeum</i> :	—Recently imported; soft greyish-purple rosettes. Whole plant covered with soft down.....	.35
S. <i>Fauconettii</i> :	—Very vivid green rosettes, fringed with hairs.....	.35
S. <i>fimbriatum</i> :	—Small grey rosettes. Leaves downy and fringed....	.35
S. <i>Gamma</i> :	—Large coppery-red rosettes with hairy tips.....	.35
S. <i>globiferum</i> :	—Pure green medium-sized rosettes.....	.35
S. <i>Hallauer's Seedling</i> :	—Much like Lown's 60.....	.35
S. <i>Havana</i> :	—Dense rosettes of dark-green, purple-edged leaves.....	.35
S. <i>Hildebrandti</i> :	—Very small, spiny dark green rosettes.....	.35
S. <i>hirtum purpureum</i> :	—The center rosette is green while the small surrounding rosettes (chix) are purple. Outstanding and rare.....	.35
S. <i>Histoni</i> :	—Lovely high-colored red and green rosettes.....	.35
S. <i>huteri</i> :	—Large green densely-placed leaves.....	.35
S. <i>Juratense</i> :	—Name doubtful, but a good medium sized variety.....	.35
S. <i>Kochi</i> :	—Medium-sized rosettes with deep red tips.....	.35
S. <i>LaHarple</i> :	—Rosettes green edged purple35
S. <i>longifolia</i> :	—Large rosettes with long light-green leaves.....	.35
S. <i>Lown's 60</i> :	—Globular green rosettes with hairy tips.....	.35
S. <i>Malby's Hybrid</i> :	—Large, flat, mahogany-red rosettes. Very fine. Recently imported from England.....	.75
S. <i>Minto's Seedling</i> :	—Green, tinted red rosettes with hairy tips.....	.35
S. <i>Mitchell Seedling</i> :	—Lower half green, upper half deep red.....	.50
S. <i>Mitchell's Giant</i> :	—A seedling of <i>S. giganticum</i> and undoubtedly one of the noblest <i>Sempervivums</i> in existance. Full grown rosettes may reach a foot across, flat, very crowded short leaves which have the outer half clear green and inner half blood red. Our Great Semp.	\$1.50
S. <i>montanum</i> :	—Small rosettes of greyish-green.....	.35
S. <i>pallidum</i> :	—Bright green leaves; edges and tips bronzy.....	.35
S. <i>Purdy's 60-1</i> :	—Small red rosettes.....	.35
S. <i>Purdy's 60-2</i> :	—Medium size; long leaves marble violet.....	.35
S. <i>Purdy's 70-40</i> :	—Much like <i>tectorum</i>35
S. <i>Purdy's 90-2</i> :	—Large red rosettes.....	.35
S. <i>rhodanthicum</i> :	—Large, with chix some distance from the hen.....	.35
S. <i>ruthenicum</i> :	—Rosettes look like grey velvet.....	.35
S. <i>rubicundum</i> :	—One of the brightest reds.....	.50
S. <i>rubicundum hybridum</i> :	—Large crimson splashed rosettes.....	.50
S. <i>Silverine</i> :	—Very light green, silvery in some soils; large.....	.50
S. <i>soboliferum</i> :	—Small, round, densely crowned green rosettes.....	.35
S. <i>Standsfieldi</i> :	—Newly imported. Extra large <i>S. arachnoideum</i>50
S. <i>triste</i> :	—Medium-sized bronzy-green rosettes.....	.35
S. <i>tectorum</i> :	—Large green rosettes, each leaf red-tipped.....	.35
SCABIOSA <i>graminifolia</i> :	10 in. Grass-like foliage; blue flowers.....	.50
SCUTELLARIA <i>balcalensis</i> :	—12 in. Dark-blue flowers in August....	.35
S. <i>tuberosa</i> :	—10 in. Mauve-colored flowers in late summer.....	.35
SENECIO <i>tyrolensis</i> :	—4 in. The best Senecio, bright orange blooms..	.75
SHORTIA <i>galacifolia</i> (Oconee Bells):	—6 in. Large white bells.....	.50
SIEVERSIA <i>ciliata</i> :	—10 in. Fern-like foliage with purple blooms..	.35
SIDERANTHUS <i>spinulosa</i> :	—8 in. golden daisies over gray foliage.....	.35
SILENE <i>acaulis</i> :	—1 in. Moss-like. Stemless rose-pink bloom. Aug.	.35
S. <i>alpestris</i> :	—4 in. Fine white blooms over little tufts of green.....	.35
S. <i>alpestris</i> fl. pl.:	—A lovely double form of the above.....	.50

<i>S. maritima</i> :—Trailer; white flowers all summer.....	.35
<i>S. maritima</i> fl. pl.:—A double flowering form of the above.....	.35
<i>S. maritima rosea</i> :—A pink flowering trailer.....	.35
<i>S. Schafra</i> :—Soft hairy rosettes with deep rose or purple flowers on 5 in. stems in late summer.....	.35
<i>S. virginica</i> :—8-10 in. Large bright red flowers in August.....	.35
SISYRINCHIUM <i>angustifolium</i> :—Grass-like foliage; blue flowers.....	.35
SMILACINA <i>racemosa</i> (False Solomon's Seal):—Cream-colored flowers. .	.35
<i>S. stellata</i> :—10 in. Spike of white flowers followed by red berries....	.35
SOLIDAGO <i>Cutleri</i> :—6 in. A dwarf Golden-rod blooming in July; rare. .	.50
STACHYS <i>alpina</i> :—12 in. Gray foliage; spikes of lavender flowers....	.35
SYNTHYRIS <i>lacinata</i> :—6 in. Light-blue flowers. Give it shade.....	.50
<i>S. missourica major</i> :—8 in. Dark-blue flowers50
<i>S. reniformis</i> :—Leaves 2 in. across; large spikes of purple blooms.....	.50
<i>S. rotundifolia</i> :—Rounded and crinkled leaves: light-blue spikes.....	.50
TEUCRIUM <i>chamaedrys</i> :—8 in. Evergreen with rosy mint flowers...	.35
Thymus:—The Thymus listed below are all excellent Rock plants.	
THYMUS <i>angustifolius</i> :—1 in. A fragrant creeping species.....	.35
<i>T. balticum</i> :—Choice new creeper with tiny foliage.....	.35
<i>T. citriodorus aureus</i> :—Creeper with yellowish foliage.....	.35
<i>T. citriodorus aureus marginata</i> :—Leaves variegated green and gold..	.35
<i>T. citriodorus argenteo-marginata</i> :—4-6 inch. Silver-edged leaves....	.35
<i>T. Herba-baronne</i> :—8 in. Violet flowers in September. Rare.....	.35
<i>T. Lanuginosus</i> :—Dense, fragrant carpeter. Best for stone walks....	.35
<i>T. nummularius</i> :—Mat forming species; round shiny evergreen leaves.	.35
<i>T. serpyllum</i> :—1 in. Leaves dark green, covered with lilac bloom.....	.35
<i>T. serpyllum album</i> :—White flowered form.....	.35
<i>T. serpyllum Annie Hall</i> :—1 in. Light pink flowers cover the foliage..	.35
<i>T. serpyllum coccineum</i> :—Dark red flowers. Also good for stone walls...	.35
<i>T. vulgaris</i> :—8 in. A fragrant sub-shrub with lilac flowers.....	.35
TIARELLA <i>cordifolia</i> :—8 in. Nice foliage and creamy-white flowers..	.35
TRADESCANTIA <i>brevicaulis</i> :—1 ft. Deep pink flowers.....	.35
<i>T. brevicaulis alba</i> :—A white flowering form of the above.....	.35
TRILLIUM <i>erectum</i> (Wake Robin) 10 in. Purple flowered.....	.35
<i>T. grandiflorum</i> :—12 in. Large white flowers ageing to pink.....	.35
<i>T. nivale</i> :—The smallest. Snow-white flowers.50
<i>T. luteum</i> :—A greenish-yellow variety35
<i>T. stylosum</i> :—12 in. Very pretty rose-colored flowers.....	.50
<i>T. undulatum</i> (Painted Trillium):—White with pink star.....	.35
TUNICA <i>saxifraga</i> fl. pl.:—10 in. A double form of this familiar plant is a great improvement over the single form. Blooms all summer. .	.50
<i>T. saxifraga</i> :—A graceful tufted plant with light-pink flowers.....	.35
UMBILICUS <i>chrysanthia</i> :—Looks like a woolly Sempervivum but is quite distinct35
VACCINIUM <i>uliginosum</i> :—8 in. Mountain blueberry75
<i>V. Vitis-idaea minus</i> :—3 in. An Arctic plant.....	.75
VERONICA <i>Allioni</i> :—3 in. Prostrate with violet-colored blooms....	.50
<i>V. amethystina</i> :—10 in. Spikes of gentian-blue flowers.....	.35

V. armena:—6 in. Fine dark-green foliage; clear blue flower.....	.50
V. Blue Spire:—10 in. Heavy spikes of deep blue.....	.35
V. canescens:—A mere film of foliage over the ground with bright blue flowers flat on earth in midsummer.....	.50
V. chamaedrys:—8 in. Trailing with light blue flowers. Midsummer: .	.35
V. corombosa:—8 in. Dense plumes of azure blue flowers in June.....	.35
V. ericoides:—Fluffy white flowers on 6 inch stems, rare.....	.50
V. filiformis:—1 in. Creeper with lavender flowers in June.....	.35
V. fruticulosa (V. saxatilis) 3 in. Violet-blue flowers.....	.35
V. gentianoides:—10 in. Early spikes of pure light blue.....	.50
V. "Hav-a-Look":—4 in. Blue and white bloom in spring, also fall....	.35
V. incana:—10 in. Woolly leaves and numerous blue flowers.....	.35
V. incana rosea:—10 in. Gray woolly leaves and rose-colored blooms.	.50
V. multifida:—6 in. Lilac-colored flowers in June.....	.35
V. orchidea:—12 in. Shiny leaves and dark blue spikes. Midsummer.	.35
V. pectinata rosea:—1 in. Pink flowers in midsummer.....	.35
V. repens:—A creeper with bluish-white flowers.....	.35
V. rupestris:—2.3 in. Clouds of bright blue flowers. Midsummer....	.35
V. rupestris rosea:—A pink flowering form of the above.....	.35
V. saturejoides:—3 in. Dark blue blooms in July and August.....	.35
V. spicata alba:—12 in. Pure white spires of bloom.....	.35
V. spicata nana:—8 in. Lovely little blue spires, rare.....	.50
V. teucrium:—Intense blue flowers in July.....	.35
V. True Blue:—10 in. A very fine Veronica blooming in August.....	.35
VIBURNUM opulus nana:—1 ft. Globe-like shrub.....	.75
VINCA minor, Trailing Myrtle:—Deep green evergreen foliage.....	.35
V. minor alba:—A white flowering form of the above.....	.35
V. minor alpina:—A form of the above with wine-red flowers..	.50
V. minor variegata:—A form with golden variegated foliage.....	.35
VIOLA , Arkwright Ruby:—Wine-red. Blooms all summer.....	.35
V. Blue Perfection: —The best large light blue Viola.....	.35
V. Chantryland:—Best apricot color. Blooms all summer.....	.35
V. Double Russian:—6 in. Hardy and fragrant with large double purple flowers in midsummer.....	.35
V. Jersey Gem:—The finest purple Viola.....	.35
V. Jooi:—Very dwarf and compact with lavender-pink blooms; rare..	.35
V. Large Blue Violet:—Finest garden violet.....	.35
V. Large White Violet:—Finest garden white violet.....	.35
V. lutea:—Golden Yellow. One of the best violas.....	.35
V. odorata semperflorens:—Everblooming purple, hardy, sweet-scented.	.35
V. White Perfection:—Large pure white viola. Blooms all summer..	.35

NATIVE EASTERN VIOLETS

V. canadensis, Canadian Violet:—White face, reverse purple.....	.35
V. conspersa, Early Pale Blue Violet:—Lavender.....	.35
V. cucullata, Marsh Blue Violet:—Blue.....	.35
V. eriocarpa, Meadow Yellow Violet:—Yellow.....	.35
V. incognita, Large-leaved White Violet:—Small white.....	.35
V. pallens, Eastern Sweet White Violet:—White.....	.35
V. pedata, Bird's-foot Violet:—Dark violet and pale lavender.....	.35
V. pedata concolor, Southern Bird's-foot Violet:—Violet- purple.....	.35
V. Priceana, Confederate Violet:—White, blue center.....	.35
V. rotundifolia, Easter Round-leaved Violet:—Small yellow.....	.35
V. fimbriatula, Vermont form:—A fine purple native violet.....	.35
WALDSTEINIA fragaroides:—3 in. Pretty foliage, yellow flowers....	.35

SECTION II

Border Perennials

Garden Irises

Alta California:—Standards golden, falls bronzy yellow; huge.....	50
Ambassadeur:—Standards bronzy velvet falls velvety black.....	.35
Ann Page:—A lovely Iris; wistaria-violet, almost sky-blue.....	.35
Asia:—Standards lavender, falls purple35
Black Beauty:—30 in. Richest purple black; outstanding.....	.50
Brunhilde:—38 in. Best of violet-blues.....	.50
Bruno:—Standards bronze, falls velvety red-purple.....	.35
California Gold:—42 in. The richest yellow of all; big.....	.50
Cheerio:—3 ft. Bright red flushed old gold.....	.50
China Maid:—The best pink blend; wonderful and glorious.....	\$1.00
Cinnabar:—A rich dark violet-purple.....	.35
Citronella:—Yellow standards, falls washed chestnut or bay.....	.35
Coppersmith:—Velvety red with copper sheen.....	.50
Coralie:—3 ft. General color raspberry red, lovely.....	.50
Crusader:—Considered by many as the best dark blue.....	.35
Depute Nombot:—42 in. Elegant copper-bronze. Formerly \$10.....	.50
Dolly Madison:—Lavender and old gold; one of the best.....	.50
Elsinor:—Primrose-yellow blended with pale purple.....	.35
Eros:—42 in. Salmon-pink, silky sheen; beautiful.....	.50
Ethel Peckham:—Brilliant red; no better red yet.....	.50
Flammenschwert:—Standards yellow, falls chestnut-brown.....	.35
Freda Mohr:—One of the largest pink Irises; rare.....	.50
Gay Hussar:—Standards lemon, falls velvety oxblood red.....	.35
Giant King:—Standards soft tan; falls claret.....	.35
Golden Hamlet:—An enormous ox-blood red Iris.....	.50
Gudrun:—3 ft. Best massive snow-white. This white is hardy.....	.50
Indian Chief:—A very good dark red Iris.....	.50
Jean Cayeux:—One of the world's best. Lovely coppery tan.....	.50
Janaluska:—42 in. Rich red golden copper at the throat.....	31.00
Labor:—A deep maroon without purple or blue shades.....	.35
Lady Paramount:—A gigantic primrose-colored Iris; new.....	.50
Legend:—Huge; standards deep blue; falls velvety crimson.....	.50
Los Angeles:—44 in. Frost white edged blue; best plicata.....	.50
Midgard:—36 in. A lovely blend of apricot and gold with pink.....	.50
Mary Geddes:—38 in. Salmon overlaid and veined with orange-red.....	.50
Mildred Presby:—Standards cream, falls velvety violet.....	.35
Missouri:—3 ft. Probably the best all blue in existence.....	.50
Morning Splendor:—A large, rich glowing red blend.....	.50
Mrs. Valerie West:—Gigantic flower of richest crimson and bronze.....	.50
Nene:—Largest of all Irises. Lilac-rose. Outstanding.....	.50
Pioneer:—One of the largest of the purple Irises.....	.35
Pres. Pinkerton:—Enormous. Pastel shades of buff, blue and gold.....	.50
Prospero:—Standards pale lavender, falls red-purple; large.....	.35
Rajput:—A large clear violet colored Iris.....	.35
Rameses:—Standards russet-yellow; falls pink50
Reverie:—Standards cream, flushed pink; falls deep pink.....	.50
Rhein Nixe:—Standards white, falls violet edged with white.....	.35
Shah Jehan:—10 in. Blend creamy buff, rose and ruby red.....	.50
Shining Waters:—33 in. Considered the best sky blue.....	.50
Sierra Blue:—44 in. Matchless medium blue self; largest blue.....	.50
Tenabraise:—Standards light violet, falls a darker violet: good.....	.35
The Red Douglas:—42 in. Iris connoisseurs call this the best red Iris to date. Worth the money.....	\$2.00
Theodolinda:—Gigantic white with blue edging; new.....	.50
Titan:—A massive Iris. General color violet-purple.....	.35
Valor:—4 ft. Blue, almost black. The best dark blue.....	.50
Wabash:—A greatly improved Rhein Nixe. Much in demand.....	\$1.50
Wedgewood:—24 in. The nearest to sky blue I have seen.....	.35

OTHER IRIS SPECIES

Siberian Blue:—Grass-like foliage, deep blue flowers on 3 ft. stems....	.35
S. Snow Queen:—Like the above but white flowers.....	.35
S. Emperor:—A large variety with navy blue flowers.....	.35

10—25 showy Rock plants for the beginner, all different.....	\$7.00

HOW TO GET TO MITCHELL NURSERIES

Arriving in Barre City, inquire for either Merchant Street or Maple Ave. Take either one, as they come together just outside of the city, and go straight one mile until you come to where a new school is situated on the left. Here the road forks; take the right hand road and go straight for a mile from the schoolhouse and you will see the smoke stack of the nursery greenhouses on the hill to the left. Go straight ahead and take the first left hand turn and in a moment you are at New England's Coldest Nursery.

We are always glad to welcome visitors at our Nursery, which is situated 3 miles from Barre, Vermont, near the Barre Country Club.

You can here select your plants and take them home with you or have them sent by express or mail.

We have many varieties, in small quantities, not listed in this catalog; we have nearly as many varieties of Rock Plants, not listed, as we have in our catalog list.

This Nursery is not connected in any way with the George Mitchell Gardens of Williamstown, Vt.
